September Club Meeting Program

Gene Colley will be our demonstrator this month. He will turn a bowl and add carving and painting embellishments. From Gene's bio:

"I began woodturning at age 12 in my dad's barn outside of St. Joseph, MO, making salt and pepper shakers and candlestick holders. I would sell them to my mother's friends to earn money to buy an electric guitar, which, to this day takes a back seat to woodturning. I now have my own 'BARN' outside of Dallas, TX and continue to turn, making artistic pieces as well as those that are functional.

I probably turn more domestic woods now than I used to because it is easier to carve and color. Many pieces of my work have a star carved somewhere in them to symbolize my Texas roots. As my forms progressed from lamps and candlestick holders to sculptural art, I learned better technique and formed a greater respect for the artistic aspect of turning by studying under many of the Masters from the US and abroad. Some of my favorite influences: Binh Pho, Douglas Fisher, Don Derry, Eli Avisera, Steven Hatcher, plus more.

I began integrating carving into my turnings in the late nineties as a way to enhance the design and make the pieces represent a thought or feeling. Sometimes I turn a piece of wood just to experience the stress relief of the shavings flying through the air and other times my goal is to shape a piece of wood into an idea or an experience in my life or someone else's. Yes, as unrealistic as it may sound, sometimes when I start turning a piece of wood, it will take shape based on my mood or creativity at the time. But most of the time when I step up to my lathe, I have a pretty definite idea what the plan is going to be if I don't make a mistake.

I had always wanted to paint on canvas to express myself, but didn't have the skills. Thanks to Binh Pho, I learned to airbrush and carve to express my thoughts and memories on wood."

Thought from the President

Well September is here already. Hopefully, cooler weather is close behind! That may be a tad optimistic but if you are like me, holiday projects are screaming for attention. Pens, boxes, bowls and Christmas ornaments need to be made. Take this opportunity to renew your love of woodturning. For most of us, it is the reason we got involved in the first place.

Remember we still need plenty of Empty Bowls and will be happy to receive more Beads of Courage boxes. What a great way to help others.

The Christmas Party is coming up in December, so be sure to get your tickets early. There will be great food and raffle and auction items available. Also, we have renewed our supply of Anchorseal, so get yours at the meeting.

We had a great time at SWAT last month. I hope you all had a chance to go. I saw many of you there. It was a good time, with near record attendance (1,023 paid attendees). There were a lot of excellent demos and some new vendors. As always, the Instant Gallery was amazing! So much talent on display at one place.

Finally, please remember to support the businesses that support your club:

- Wood World
- Woodcraft Plano
- WoodturningToolStore.com
- Turningwood.com
- Rockler

Happy turning! Henry

Twelve of the 36 initial 2018 BoC kits have been completed, the remaining 24 are due at our October meeting. Contact Lou, louboudreaux@att.net, if you are having questions or problems with your kits. Also, see Lou if you need disks to put in box lids.

September Ladies' Lathe Day a Success!

"Bahama Bob's "Splash Technique" and the Iridescent Airbrush method were a hit! Martha really went out of her comfort zone on this one, Lauren dove into an ocean motif, Teresa blazed through a stunning orange and red bowl with tiger stripes, and my artistic talent sprouted with something that *sort of* looked like flowers!

Thanks to Bob Fleming for hosting such an informative presentation with hands-on help ... I know it was hands on because we all left with different colored fingers!

Bob was a wealth of knowledge and saved us all a lot of time by having tried many different products and coming up with the best combination for these unique swirly, splashy, colorful designs.

Please look for an email with the October details for an unstructured open shop if I can negotiate a viable date!

As always – a big THANK YOU to the staff at Wood World: Richard and John for the extra setup and tear down muscles, Calvin for putting up with us, and Craig for allowing us to use the space!
